

Apple Creator Studio

A Brief Overview

What is It? - A Subscription Based Bundle of Apple Creator Application

- Final Cut Pro: Create Video (Mi)
- Pixelmator Pro: Edit Images (Mi)
- Motion: Animate Effects (M)
- MainStage: Perform Live (M)
- Logic Pro: Make Music (Mi)
- Compressor: Encode Media (M)
- Pages: Create Documents (Mii)
- Keynote: Design Presentations (Mii)
- Numbers: Make Spreadsheets (Mii)
- To come - Freeform

What is It?

- A Subscription Based
- Logic Pro: Make Music

The screenshot shows the Apple Creator Studio app page. At the top, the app icon (a 2x2 grid of icons) is displayed next to the title "Apple Creator Studio" and the category "Photo & Video". A "Purchased" badge is visible. Below this, the "AGES" section shows "4+" with "In-App Controls" below it. The "DEVELOPER" section shows the Apple logo. The main section is titled "9 Apps in This Bundle" and lists the following apps:

App Name	Description	Availability	Action
Final Cut Pro: C...	Tell stories that move	Available on [Mac]	Open
Pixelmator Pro:...	Design and enhanc...	Available on [Mac]	Open
Pages: Create...	Write, layout, and d...	Available on [Mac]	Open
Motion: Animat...	Create motion grap...	Available on Mac	Open
MainStage: Per...	Take the studio to t...	Available on Mac	Open
Logic Pro: Mak...	Produce beats and...	Available on [Mac]	Open
Keynote: Desig...	Build and present y...	Available on [Mac]	Open
Numbers: Make...	Plan, organize, and...	Available on [Mac]	Open
Compressor: E...	Export video to any...	Available on Mac	Open

- MOTION: Animate Effects
- MainStage: Perform Live
- Spreadsheets
- T ocome - Freeform

How to Get It/Them and How Much

- First Try
 - Found the New Final Cut Pro and downloaded
 - Open FCP and was presented with a Dialog to Choose a Plan
 - All free trial for a month. Three months with iPad/Mac purchase
 - Regular subscription \$12.99 per month; \$129 per year
 - Shareable with 5 Family Members
 - Educational subscription \$2.99 per month; \$29.99 per year
 - Not Shareable

How to Get It/Them and How Much

- Second Try
 - Found the New Final Cut Pro entry with a Apple Creator Studio button
 - Presented with App Store page shown previously
 - All free trial for a month. Three months with iPad/Mac purchase
 - Regular subscription \$12.99 per month; \$129 per year
 - Shareable with 5 Family Members
 - Educational subscription \$2.99 per month; \$29.99 per year
 - Not Shareable

Requirements

- Full functionality: OS 26
- Full functionality: Mac (M1+), iPad (A16+) or A17 Pro, Vision Pro
- More limited functionality with earlier OS and hardware
 - macOS 15.6, iPadOS 18.5
 - iPad A12 Bionic
 - AI Mac M1+, iPad A17 or M1, iPhone 15

Usage Limits for features powered by OpenAI

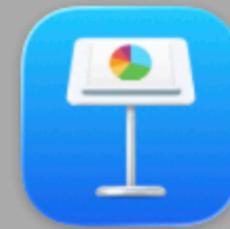

- Monthly minimum
 - Generate 50 images
 - Generate 50 presentation (with 8-10 slides)
 - Resets each month
 - View Usage from Intelligence Features > Show Usage
 - Doesn't Integrate with ChatGPT account
 - No mention of topping up
 - ACS License 132 pages ;-) Three pages in English - as expected
- I'm currently at 15% (2 Feb 26)

Some Concerns and Questions

- Mention of keeping the old versions - I am for now
- Annoying pop-ups and mention of Premium content
- How will projects developed with the new version behave without a continued subscription
 - For example after the trial month - could be PR issue
 - The 'iWorks' projects might exclude premium content or have a watermark

Some Concerns and Questions

- Mention of keeping the old versions - I am for now
- Annoying pop-ups and mention of Premium content
- How will projects developed with the new version be handled without a continued subscription
 - For example after the trial month - can they be used?
 - The 'iWorks' projects might exclude some features and have a watermark

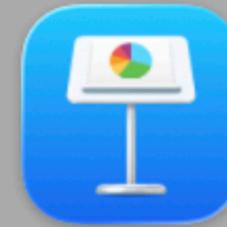

Use the New Version of Keynote
Keynote 14.5 is out of date and can be deleted.

The screenshot displays two overlapping spreadsheet windows. The top window shows a table with a single row of data. The bottom window shows the same table with three rows of data, where the last two rows are highlighted with a yellow diagonal pattern, indicating they are suggestions. A 'Magic Fill Suggestions' dialog box is open over the bottom window, showing the suggested data and providing 'Reject' and 'Accept' buttons. The dialog also includes a 'Check important data for accuracy' warning and an 'As Text' option.
